August 2009

The **DRG Medical Equipment Group** focuses on high technology medical specialty areas such as Interventional Cardiology, Electro-Physiology, Cardio-Surgery, and Angiology.

In selected markets, the **DRG Medical Equipment Group** has been appointed as a full-service distributor and technical service organization by well-known manufacturers such as General Electric (GE Healthcare), Datascope, ITC, Viasys, Hexacath, Stereotaxis, CryoCath, BioSense Webster (a Division of J&J), and others. DRG Subsidiary staff promote, market, sell, install, and service all equipment in their respective territories, in close cooperation with the manufacturers' specifications and training. DRG has the expertise to provide guidance to medical facilities and equipment manufacturers in consolidating the purchase, installation and training of new departments, or entire medical centers.

DRG is a privately held Corporation with headquarters located in Mountainside, New Jersey, a short distance from New York City. A multinational and multilingual staff of 125 people worldwide, provide logistic and functional support between Corporate Headquarters and DRG International Subsidiaries, as well as to customers and suppliers.

The DRG Group operates through a network of **DRG Subsidiaries** in Germany, Poland, Russia, China, and the Czech Republic, and through distributors in Europe, the Middle East, Africa, and the Asian Pacific Region. DRG is thus active in over 110 markets, enabling it to offer access to specialized medical markets in most major countries around the world.

The highly skilled DRG staff of medical, clinical, marketing and service specialists are experts at taking innovative technology to market through local territory knowledge and contacts, end-user training, education and cost-effective financial and logistical support.
